The Company maintains a policy of owning stocks that are deemed meaningful, based on a comprehensive consideration, from a medium- to long-term perspective, of the relationship with the Group’s businesses, the profitability of the Company, and the possibility of creating business opportunities, among other factors.

A decision is made every year at the Board of Directors Meeting concerning whether to continue holding the stocks, based on quantitative and qualitative consideration regarding primarily the benefits and risks associated with holding the stocks, in light of various factors including the business track record with the Company, and the market price of the shares. If it is decided, as a result of the consideration, that there is little significance of holding stocks, the Company reduces the stocks held.

Exercise of voting rights

The Company maintains a policy of making decisions on supporting or opposing agenda items on a case-by-case basis, and exercises the voting rights, with consideration given to the issuing company raising its corporate value, the issuing company’s compliance framework, and the possibility that the issue will have a negative impact on the Group’s business, among other factors.

[Principle 1-7 Transactions among Related Parties]

The Company has provided that the Board of Directors shall make decisions with respect to matters such as officers with interests in competing businesses and conflict-of-interest transactions, in accordance with the Board of Directors Regulations and other regulations.

Also, the Company has established a framework to enable the persons giving approval to make sure that, if the Company or a Group company engages in business transactions with key shareholders or other related parties, the interests of shareholders and the Company are not harmed, taking into consideration the importance and nature of the business transaction in question, in accordance with internal regulations.

The Yamato Group Corporate Pension Fund manages the reserves for the Company's corporate pension plan.

The Company facilitates the professional development of said Fund's staff mainly by allocating personnel with expertise at the Fund's secretariat, and by sending staff members to external seminars.

Personnel with the appropriate qualities are assigned to the Pension Assets Management Committee and the board of representatives, and a labor union official is assigned as a representative for the beneficiaries.

The Board of Directors Meeting is held at least once a month to deliberate on and decide the basic policies for business management.

On the other hand, the Company has set up the executive officer system in order to realize the efficiency of the management and the clarification of responsibility through the clear separation of management decision-making, supervision and execution. The scope of responsibility of each executive officer that is decided by the Board of Directors is disclosed, and executive officers execute business in accordance with internal regulations.

[Principle 4-9 Criteria for Determining Independence and Qualification for Independent Outside Directors]

As policies for independence from the Company to elect Outside Directors and Outside Audit & Supervisory Board Members, the Company has established its own criteria for determining independence as follows based on the criteria for determining independence presented by the Tokyo Stock Exchange.

The Company has appointed all of the Outside Directors and Outside Audit & Supervisory Board Members as independent officers provided for under the provisions of that exchange and registered the individuals as such with the exchange.

The Company's Board of Directors shall consist of Directors and Audit & Supervisory Board Members, the number of Directors shall be 12 or less, and the number of Audit & Supervisory Board Members shall be four or less. The Board of Directors shall comprise diverse officers with different backgrounds including professional expertise, experience, gender and global awareness, such as a Director possessing deep insight in the Group's businesses and an Outside Audit & Supervisory Board Member who exercises supervision from an independent and objective standpoint.

In the effectiveness evaluation for the fiscal year ended March 31, 2019, the Company received an evaluation that the composition, management conditions and deliberation conditions of the Board of Directors were largely appropriate as a system where the Board of Directors serves the oversight function, and that the culture where attendees actively speak up and engage in unrestricted discussions at the Board of Directors Meeting had taken hold.

Based on these situations, the Company has confirmed that the Board of Directors has been able to display effectiveness that contributes to securing sound management and achieving prompt and accurate decision-making and business execution, which are the Company's basic policies for corporate governance.

The Company is taking very seriously the finding that the case of inappropriate billing at Yamato Home Convenience Co., Ltd., which was identified in July 2018, was caused by insufficient administration and oversight of the group companies by the Company. The Company has internally established the "Group Governance Project" for the purpose of fundamentally and comprehensively restructuring the Group's overall governance as a measure to prevent recurrence across the entire Yamato Group. The Group Governance Project promotes reforms to the administrative and oversight structures of the Company and each company of the Yamato Group and conducts periodic monitoring of the progress.

Going forward, the Company will continuously work to strengthen the administrative and oversight structures of the Company and its group companies in order to enhance sound management of the entire Yamato Group while maintaining and improving the effectiveness of the Board of Directors for the execution of the growth strategies for NEXT100, the next 100 years to follow the first 100 years since foundation, the anniversary of which shall be celebrated in November this year.

[Supplementary Principle 4-14-2 Policy on Training of Directors and Audit & Supervisory Board Members]

In order to ensure objectivity and transparency, the Company's policy for determining compensation for officers and other matters shall be deliberated on by the Nomination and Compensation Committee, more than half of whose members are Outside Directors, and determined by the Board of Directors in light of recommendations by the committee.

The date of the resolution at the General Meeting of Shareholders related to the compensation, etc. of the Company's officers was June 28, 2018, where the amount of compensation to be provided to Directors was determined to be a monthly amount of up to 45 million yen (of which up to 6 million yen is allocated to Outside Directors).

The indicator for performance-linked compensation is operating profit, which was selected to strengthen the connection to company performance and improve transparency and objectivity. The total amount of performance-linked compensation paid shall be determined by the level of achievement of the consolidated operating profit target and the individual compensation amounts paid shall be the sum of the amount determined by the Director's rank and title and the amount determined by a multifaceted evaluation of achievement of individual-specific performance targets. Note that the target for the consolidated operating profit serving as the indicator related to performance-linked compensation for the fiscal year ended March 31, 2019 was 58,000 million yen and the actual result was 58,345 million yen.
